REPORT OF SCHOOL BOARD.

GENERAL REMARKS.

In submitting our annual report, we are pleased to state that for the most part our schools have been intrusted to the care of a class of very efficient teachers, consequently good improvement, both in discipline and studies, has been made. We feel to thank the town, on behalf of the schools, that through its munificence, we have been enabled to maintain and give to each child in town the full benefit of twenty-two weeks schooling during the past year, which, if we mistake not, is from six to eight weeks more than could possibly have been maintained with only the amount of money required by law to be raised for school purposes. Nor is this all. It costs no more, when once in session, for the care and oversight of a term of school twelve weeks in length than it does for one of eight; neither does it take any more of the teacher's time to get acquainted with the school, review, and get it ready for examination day for a long term, than for a short one; therefore the gain to our children is one of great importance. In this connection the question seems to be quite pertinent: Shall we allow that which we all know is and will be for the best interests of our children to flag for want of this comparatively small additional expense? We believe not. Let us not take a step backward, but having once put our shoulders to the wheel continue on in well doing.

There seems to be a lack of interest in some schools on the part of the parents and citizens. As will be noticed under each district report, the number of visitors reported during the past year has been very small. Your committee are of the opinion that there is no better way to excite enthusiasm or create ambition to excel in a child than for the parents to visit their children in the schoolroom.

Our schoolhouses are, with one or two exceptions, in quite

good repair. In accordance with the vote of the town at the last annual meeting, we have caused to be re-shingled, painted, and otherwise repaired, several of our schoolhouses, thereby rendering them much more attractive and homelike. The schoolhouse on Guinea Ridge is in need of considerable repairing, and should be attended to at once.

REPORT OF SCHOOLS.

KELLY DISTRICT NO. 1.

Summer term of ten weeks taught by Miss May C. Osborne. For the past ten years Miss Osborne has paid special attention to teaching. She works hard in the schoolroom, and her labors are appreciated by scholars and parents.

Winter term of twelve weeks taught by Miss Alice M. Ayer. Whole number of scholars, 22. This is quite a difficult school to teach in one respect: There are too many classes for any one teacher to do them justice; nevertheless, Miss Ayer proved herself equal to the school, and under her skillful management the scholars passed a very good examination.

POTTER DISTRICT NO. 2.

In this district Miss Mabelle Kelley made her first attempt to teach, and would have made a very good showing had she been fairly treated. If outside parties, who have no interest in the school, would try to help, instead of trying to make trouble between the scholars and teacher, it would be more beneficial to the scholars of this district.

Fall term of eleven weeks taught by Miss Myra A. Morrill, of Rochester. Owing to misunderstanding on my part, this school was cut short. Did not find out my mistake until too late to rectify it. This school was much larger than the spring term. Was not present at the examination, therefore am not able to report what improvement was made.

HALL'S HILL DISTRICT NO. 3.

Spring term of ten weeks and fall term of twelve weeks

taught by Miss Edith M. Page, a very thorough and efficient teacher. This school has been under Miss Page's instruction several previous terms, and has given good satisfaction. She is of a quiet and ladylike disposition, and governs her school by love rather than by force. The committee was well satisfied with the progress made. The class in physiology and hygiene made as good improvement as any class in that study in this division. Order good. Rhetorical exercises were a pleasing feature.

Percentage of daily attendance, both terms, 100.

Number of visitors, both terms, 36.

COGSWELL DISTRICT NO. 6.

Spring term of ten weeks taught by Mrs. Fannie A. Osborne, a teacher of considerable tact and ability. She has had charge of this school several terms in past years, consequently did not spend much time in getting acquainted with the scholars and her work. Mrs. Osborne is a very systematic and hard-working teacher, ever ready to assist those in need of help. The classes in all branches taught showed thorough training and remarkable improvement. A fine teacher and a good school.

Percentage of daily attendance, 100.

Number of visitors, 10.

Fall term of twelve weeks taught by Miss Mabel F. Kelley, a student at New Hampton. Miss Kelley is very forcible in her explanation, faithful in her work, and withal a successful teacher for one so young and inexperienced. This was her second attempt at teaching, and her efforts in this school were certainly crowned with success. Advancement made would have done credit to a teacher with a great deal more experience. Should Miss Kelley conclude to make teaching her avocation in life, we believe she would become one of the shining lights in the profession, possessing, as she does, many of those rare qualities which are so requisite in the make-up of a good teacher. The parents manifested a good degree of interest in the prosperity and welfare of this school, nearly every family in the district being represented by one or more of its members. In the rhetorical exercises the school acquitted itself with much credit, one little fellow, Harold Sleeper, creating considerable amusement.

Percentage of daily attendance, 100.

Number of visitors, 20. Register partially filled.

SMITH'S MEETING-HOUSE NO. 5.

Summer term of ten weeks taught by Miss Alice M. Ayer. This is an excellent field for a teacher. There are some very good scholars in this school. Under the instruction of so able a teacher as Miss Ayer a very good improvement was made.

Winter term of twelve weeks taught by Mrs. Horace G. Page. Mrs. Page has paid especial attention to teaching for several years, and is very thorough in her work. The writing books are worthy of mention. There was no prize offered, but the scholars seemed interested in this work. Quite a decided improvement was the result.

LOUGEETOWN DISTRICT NO. 7.

Spring and fall terms taught by Miss Abbie L. Lougee. This teacher has had considerable experience in teaching, especially in this district, having taught this school several terms, and has given good satisfaction. This school is smallest of any in this division, yet Miss Lougee managed to keep up a lively interest on the part of the scholars. The closing examinations were a credit to both teacher and scholars. Rhetorical exercises were quite interesting.

Percentage of daily attendance, first term, 87.50; second term, 75.

Number of visitors, both terms, 16.

GALE DISTRICT NO. 11.

Spring term of ten weeks and fall term of twelve weeks both intrusted to the care of Miss Minnie E. Nelson, a graduate of Gilmanton Academy. Miss Nelson has had the tutorship of this school for several terms, and your committee is very happy to report that under her management this school is rapidly regaining its former reputation of being one of the best schools in town. The promptness with which the answers were given on examination days was very noticeable, showing the thorough

manner in which they had been taught. To say that Miss Nelson ranks high as one of our best teachers is only justice which she richly merits. The parents and citizens in this school seem to be alive to the importance of school work, an element so much needed in most of our schools to create ambition and enthusiasm within the scholars. Good improvement was made. Rhetorical exercises were very meritorious. This school contains some very fine speakers.

Number of visitors, both terms, 29.

ALLEN'S MILLS DISTRICT NO. 8.

Summer term of ten weeks and fall term of twelve weeks both taught by Miss Mary A. P. Green. I consider both terms as profitable. Progress and order were both good.

The teacher seems to have the good will of the pupils and certainly they have made great advancement under her care. In the advanced spelling class but one word was missed for twelve weeks.

CORNER DISTRICT NO. 9.

Summer term of ten weeks taught by Miss Lillian M. Eveleth. This is Miss Eveleth's second term in this school. The term was at one time interrupted by sickness, yet at its close this was hardly noticeable, so great was the advancement. Order good.

Second term taught by Miss Emma S. Page. Miss Page has taught several terms here and always given satisfaction. A good progress was made. Prizes were given to all on the roll of honor and also a prize to the one standing at the head in the fourth spelling class the most times; this was won by a little fellow after being out five weeks sick. Order good.

ROGERS DISTRICT NO. 10.

It was found necessary to have a school here, although there were only three pupils.

Satisfactory arrangements were made with Mrs. Laura E. Varney to instruct these few and she did it in a most acceptable manner. I wish there were more teachers of her ability and experience to be hired for some other schools.

JONES'S MILLS DISTRICT NO. 13.

Summer term of ten weeks taught by Miss Lizzie Clough. This was a very profitable term of school. The scholars acquitted themselves nobly examination day ; they seemed desirous to learn and the teacher ready to help them.

The spelling of the little ones was a marked feature. Seven little ones, ranging from five to nine years, named all of the states and territories, also the counties of New Hampshire, its capital and its cities, and spelled each name correctly and without hesitation, from the oldest to the youngest.

Second term of twelve weeks taught by Miss Lillian Eveleth. Miss Eveleth had won the love of her pupils in a former term and held it throughout this. A marked improvement was made by some hitherto backward pupils, and a good progress by all.

GRIFFIN DISTRICT NO. 14.

Summer term of ten weeks taught by Miss Myra A. Morrill. Miss Morrill has a different method and a good one. She has a very pleasant way of explaining to her pupils. Rhetorical exercises very good.

Fall term of twelve weeks taught by Miss Annie Morrill. This was Miss Annie's first attempt to teach.

The scholars in this school are eager to gain a thorough knowledge of the text-books furnished them. Under the instruction of Miss Morrill good results were attained.

SANBORN DISTRICT NO. 16.

Summer term of ten weeks taught by Miss Annie M. Barber. This was Miss Barber's first term ; however, she went about her duties with a quiet easy grace that would lead one to think she had had former experience. She soon won the respect of her pupils and labored hard for their good. The advancement was good. Examination satisfactory.

Second term of twelve weeks taught by Miss Lulu B. Glines. Miss Glines proved herself a capable teacher and won the good will of all, and I think gave satisfaction throughout the district.

A number of presents were exchanged between teacher and scholars.

LAMPREY DISTRICT NO. 17.

Summer term of nine weeks taught by Miss Lillian Kendall. Miss Kendall tried hard for the advancement of her pupils, with good results.

The school was interrupted by sickness the first of the term ; still by the exercise of patience and perseverance, quite an amount was gone through. The examinations were satisfactory. Order very good.

Second term of twelve weeks taught by Miss Annie Barber. This school has few scholars, but from pure necessity a large number of classes. The teacher, by patient forbearance, has been able to accomplish much good. In a quiet manner she held the pupils in restraint, and at the same time directed and explained all difficult points. The progress was not rapid but certain. Order good.

IRON WORKS DISTRICT NO. 18.

This school is not as large as it has been in former years, yet it is the largest and most advanced school in this division. This school was divided into spring and fall terms, both of which were taught by Mrs. Carrie M. Leyland. This teacher is too well known and has a reputation too well established as an excellent teacher to need any commendation from your committee ; suffice it to say Mrs. Leyland is a very industrious, efficient, and conscientious teacher. The progress made by this school was excellent. It was thought best to have a vacation in the fall term during Christmas week, thereby dividing this term into two short ones. This term was composed of some very good scholars. A class in Brown's advanced algebra completed and reviewed the book. Also one class of two young ladies, Miss Ina Connell and Miss Florence Marsh, who took up algebra for the first time this term, completed the elementary course, which we think is remarkable progress ; and in this connection the advanced class in spelling is worthy of considerable praise, three members of

which did not misspell a single word during the term, or one out of fourteen hundred words, while the remainder of the class missed only one or two each. Class in composition showed much ability, and is especially worthy of mention, some of the compositions written being very nicely composed and finely written. We are very sorry to have to call the attention of the parents and citizens to their seeming disinterestedness in the education of their children. We believe an hour or two cannot be spent in any better cause than by spending it in the schoolroom with your children.

Number of visitors both terms, 10.

REPORT OF COMMITTEE ON REPAIRS.

At the last annual school meeting it was voted to raise $300 to be expended in painting, shingling, and otherwise repairing such schoolhouses as the committee should consider necessary, and chose the school board as committee to expend the same.

In accordance with the vote the committee have caused to be shingled the schoolhouses in the Sanborn and Allen's Mill districts (Nos. 8 and 10), at an expense of $82.46. They have also caused to be painted outside, and more or less inside, the schoolhouses in the Iron Works, Smith's Meeting-House and Allen's Mill districts, at an expense of $106. Items of the above, together with other expenses, will be found in the following itemized statement.
